JOINT PHOTOGRAPHIC INTELLIGENCE BRIEF

ARMY - NAVY - CIA

INSTALLATION: Possible Guided Missile Launch Site
LOCATION : North of Bydgoszcz, Poland
B. E. NUMBER: None
WAC NUMBER: 169 25X1D

BRIEF NO.: JB-15-58
DATE : 29 May 1958
LAT. : 53° 13' N
LONG. : 17° 58' E

REFERENCES:

ATMP: 0169-9994-100A, 1st ed., June 1953

Other : [REDACTED]

REQUIREMENT: Prepared as a part of a comprehensive analysis of Soviet guided missile sites and activities, under HTA Joint Project 5-58.

REMARKS:

25X1A
25X1D
25X1D

[REDACTED] reports hearsay evidence that a guided missile launch site was under construction 12 kilometers north of Bydgoszcz, Poland, and that construction on this site had been initiated sometime in [REDACTED]. A study of [REDACTED] photography reveals that a possible guided missile site is under construction at the referenced location. Three cylindrical concrete structures measuring 50 feet in diameter and 15 to 20 feet deep are under construction within a fenced area measuring approximately 1,800 by 2,200 feet. A new single-track rail spur, four kilometers in length, has been laid to within 800 feet of the fenced area. Ground scars indicate that this spur will be extended into the fenced area and terminate near the concrete structures. A construction camp is located just outside the northwest corner of the fenced area.
